## ABOUT

Frontend Developer with one year of experience designing and developing user interface components of a digital delivery platform for a retail client. Proficient in HTML, CSS & JavaScript. Familiar with scrum/agile methodologies. Believe in collaborative way of working. I will be happy to be part of a team creating awesome web products. Flexible to work on any frameworks and web technologies.

## WORK EXPERIENCE

**ASSISTANT SYSTEM ENGINEER**

**Tata Consultancy Services** | Jan 2021 - Present

Job Role - Frontend Developer

As a Frontend Developer, I have worked on many new features and functionalities. Created new UI Components and Services. Performed API integrations, System testing and some Bug fixes. Framework used - Angular.

- Added like buttons, voting polls, new filters which improved personalized user experience.
- Created multiselect options/grouping which helped business team to get sales insight for different regions.
- Worked on notification and video content integration.

**Recognitions:**

- Recognized by client as 'Innovate-learn fast & Share' category in Q2 FY21-22
- On The Spot Award, Awards for Excellence from TCS
